Vidhya Vikash Secondary Boarding School; Jagati Bhaktapur

YEAR OF COMPLETION: 2019

GPA: 3.2

Languages Known

- Nepali (Fluent)
- English (Fluent)
- Hindi (Fluent)

Projects

- **Emotion Based Music Recommendation System**

Built a machine learning-based system using Python, TensorFlow, and OpenCV to detect user emotions via facial recognition and recommend songs from a curated playlist.

Github: <https://github.com/prajwolk09/Emotion-Based-Music-Recommendation-System>

- **Restaurant Website**

Developed a full-stack web application using Laravel, PHP, and MySQL, enabling users to browse menus, make reservations, and order food online. Implemented secure user authentication and real-time order tracking, improving user experience.

Github: <https://github.com/prajwolk09/Restaurant-Reservation>

- **Movie Website**

Created a responsive movie search platform using React and a third-party API, allowing users to search for movies and view detailed information.

Github: <https://github.com/prajwolk09/MovieApp-React>

- **Portfolio Website**

Designed a personal portfolio using React and TailwindCSS to showcase skills, projects, and achievements. Incorporated animations with Framer Motion for a dynamic user experience.
